Welcome Message

On behalf of Dubai Racing Club and our valued partners, it is my pleasure to welcome you to the Dubai World Cup 2025.

For over two decades, the Dubai World Cup has stood out as a symbol of excellence, both at Nad Al Sheba and Meydan Racecourse, playing host to the very best in the world of Thoroughbred and Purebred Arabian racing.

Envisioned by His Highness Sheikh Mohammed bin Rashid Al Maktoum, the Vice President and Prime Minister of the UAE and Ruler of Dubai, the evolution of the Dubai World Cup has been remarkable to witness over the years, and today, with its unparalleled legacy continuing to inspire generations and elevating this sport around the world, we are incredibly proud of the heights that we have reached.

As we build towards the 29th edition of this iconic meeting, we extend a warm invitation and call on the world's pioneering owners, trainers and jockeys to join us under the dazzling lights of Meydan Racecourse for another historic renewal of this spectacular and competitive race night.

Rashed Bin Dalmook Al Maktoum

Veterinary Protocols

Mandate for veterinary inspection of horses competing at the Dubai World Cup 2025 meeting is as follows:

1. Every horse invited to compete in the Dubai World Cup meeting will be subject to a veterinary inspection performed by a Emirates Racing Authority (ERA) Veterinary Officer. The purpose of the inspection is to ensure that a horse does not have any abnormalities which could adversely affect its health, performance, or its chances of competing in its race at this meeting.
2. This compulsory inspection will be performed between two days and five days, prior to Dubai World Cup race day, or at any other time determined by the ERA and Dubai Racing Club.
3. The inspection will require the horse to be identified via its passport and to be trotted-up in hand on a firm, flat non-slippery surface to assess its action and to have its locomotory structures palpated for abnormalities.
4. If a relevant abnormality is detected, the ERA Veterinary Officer will monitor the condition of the horse in consultation with an ERA-appointed panel of Veterinary Surgeons.
5. Trainers are invited to present horses which may have some gait idiosyncrasies to the ERA Veterinary Officer earlier than the suggested dates to overcome any misunderstanding on suitability to race issues. The use of gait analysis technology such as Sleip can provide supportive evidence.
6. A video of the horse trotting at least 20 metres towards and away from the person recording the video, on a firm flat surface no longer than six days before departure for Dubai is to be sent to the ERA Regulatory Veterinarian.
