E: **uk-dg-shipping@janah.co.uk**

T: +44 1638 732 100

Horse Travel

The Dubai Racing Carnival selection committee will only consider **horses rated 105 and above** for travel subsidies.

Additionally, **2yo** (2025) – **3yo** (2026) will be entitled for shipping subsidies if they finish in the **first 3 in any Meydan pattern race** or if they achieve a rating of 95 and above at the end of the carnival.

Furthermore, travel incentives will be decided on a horse-by-horse basis.

Dubai Racing Club (DRC) will cover the cost of return **air freight** for each incentivised horse for the Dubai Racing Carnival, based on **three horses per pallet** on existing scheduled service cargo routes, from their country of origin, or nearest country/airport with scheduled service cargo routes to/from Dubai and return to the same point, together with affiliated charges for UAE import/export.

For 2yo (2025) – 3yo (2026), connections must pay the air freight for their horse to come to Dubai but if their horses reaches the subsidy threshold to receive the incentive, DRC will **reimburse** the cost of the **air freight** to Dubai, to the trainers DRC account, and cover the cost of the air freight to return the horse to its point of origin.

For UK/EU origin horses, the use of charter flights will be optimised and wherever possible will be used in preference to schedule line flights. Should owners wish to make alternative arrangements relating to the return of their horses, they will be responsible for all charges applicable to this change, however Janah will be able to advise.

Incentivised horses must **run at least twice** at Meydan to retain their incentive. If the horse is sold privately or at public auction in the UAE, the return portion of the transport subsidy is forfeited.

All horse should leave Dubai at the end of the of Dubai Racing Carnival. Owners wishing to leave their horses in Dubai after the Dubai Racing Carnival must gain approval from the DRC.

All GCC horses, whether transported by road or air, will be coordinated through DRC and Janah Management. No allowance will be issued.

Trainers will need to make their own arrangement for them and their staff to travel to and out of Dubai.

Any international horse subsequently INVITED to run at the Dubai World Cup Meeting 2026, that is already resident in Dubai, will be eligible for benefits as per the Dubai World Cup policy.

* Please note: If the UK import conditions change in the interim period, connections will be advised through Janah agents.

IMPORT CONDITIONS

Import Conditions

Horses from all countries will need to meet, as a minimum, the UAE temporary import conditions appropriate to the country of origin. All horses will be stabled in designated quarantine facilities based on their country of origin, separated from local horses. Access to these areas will be restricted.

Post Arrival Recovery Period

- Horse arriving in the UAE will **be restricted** to their allocated stabling at the quarantine facility for up to **48 hours**, depending on the length of journey
- Horses that travel for less than six (6) hours (stable to stable) will be confined for a minimum of 12 hours after their arrival at the quarantine facility
- Horses travelling for more than six (6) hours (stable to stable) will be confined for a minimum of 48 hours after their arrival at the quarantine facility

During this time, they **will not be allowed out** to the main track or training track. They will be closely monitored for recovery from the journey and appropriate testing will be performed based on country of origin.

Exercise will be permitted within the confines of the facility with each facility having a trotting ring.

Vaccination Requirements

Equine influenza vaccination requirements for permanent entry into UAE is compulsory.

Within 60 days of export but **NOT within 14 days** of export the horse must be administered the following:

- A valid primary course consisting of two vaccinations 21-42 days apart with the **same brand of vaccine** (both doses must be administered within the 60 days but not within 14 days of travel).
- Or a booster to a valid primary vaccination (21-42 days apart with the same vaccine) – boosters must be given within 12 months of the primary course, and within 12 months of each booster vaccination. The most recent booster must be within 60 days but not within 14 days of shipping.

If the primary course in the passport does not meet with the required 21–42-day interval, or both doses were not given with the **same vaccine** then a new primary course **MUST** be given.

If there is more than **six months between any booster** doses a new primary course **MUST** be given.

If you are considering sending your horse to the DUBAI RACING CARNIVAL, please urgently send a coloured scan of the passport vaccination pages to Janah so that they can advise if there is any action to take in this regard to ensure shipping
