VETERINARY PROTOCOLS

Mandate for veterinary inspection of horses competing at the Dubai World Cup 2026 meeting is as follows:

1. Every horse invited to compete in the Dubai World Cup meeting will be subject to a veterinary inspection performed by Emirates Racing Authority (ERA) Veterinary Officer. The purpose of the inspection is to ensure that a horse does not have any abnormalities which could adversely affect its health, its performance, or its chances of competing in its race at this meeting.
2. This compulsory inspection will be performed between two days and five days, prior to Dubai World Cup race day, or at any other time determined by the ERA and Dubai Racing Club.
3. The inspection will require the horse to be identified via its passport and to be trotted-up in hand on a firm, flat non-slippery surface to assess its action and to have its locomotory structures palpated for abnormalities.
4. If a relevant abnormality is detected, the ERA Veterinary Officer will monitor the condition of the horse in consultation with an ERA-appointed panel of Veterinary Surgeons.
5. Trainers are invited to present horses which may have some gait idiosyncrasies to the ERA Veterinary Officer earlier than the suggested dates to overcome any misunderstaing on suitability to race issues. The use of gait analysis technology such as Sleip can provide supportive evidence.
6. An invitation to submit a video of the horse trotting using the sleip app will be sent by email in advance of arrival and this must be submitted to the ERA regulatory veterinarians no longer than 6 days before departure to Dubai.
